2014 Summer Research Externship Projects

1. Albeir Mousa, MD - Preceptor
   Vascular Center of Excellence/Vascular Surgery
   Project Title: Patency Rates of Stents Versus Angioplasty Following Endovascular Therapy for Lower Limb Ischemia

2. Patrick Stone, MD - Preceptor
   Vascular Center of Excellence/Department of Surgery
   Project Title: 10 Year Management of Embolisms at CAMC of Femoral Pseudoaneurysms

3. Patrick Stone, MD - Preceptor
   Department of Surgery
   Project Title: Surgical Site Infection Rate for Penicillin Allergy Patients Undergoing An Open Groin Procedure

4. Aravinda Nanjundappa, MD - Preceptor
   Vascular Center of Excellence/Vascular Surgery
   Project Title: Procedural Outcomes of Transcatheter Aortic Valve Replacement Via Iliac Conduit

5. Steven Jubelirer, MD - Preceptor
   David Lee Cancer Center/Internal Medicine
   Project Title: Outcomes of Renal Cell Carcinoma at CAMC

6. Luis A. Bracero, MD - Preceptor
   OB/GYN
   Project Title: Obstetric Sleep Apnea in an Obstetric Population: An Observational Study

7. Byron Calhoun, MD - Preceptor
   OB/GYN
   Project Title: Umbilical and Uterine Artery Doppler Studies Predicting Outcome in Pregnancies Affected by Maternal Tobacco Abuse

8. Terence Rhodes, MD - Preceptor
   David Lee Cancer Center/Internal Medicine
   Project Title: Determining the Effect of Obesity on Cancer recurrence Rates

9. Jessica Luzier, PhD - Preceptor
   Psychiatry
   Project Title: Contextual and Neuropsychological Barriers to Treatment of Eating Disorders

10. Cristian Sirbu, PhD - Preceptor
    Psychiatry
    Project Title: Post-traumatic Stress Disorder (PTSD), Work Stress and Burnout Among Health Care Professionals

11. Arun Nagarajan, MD - Preceptor
    Hematology/Oncology
    Project title: Carotid Stenosis in Patients with Polycythemia Vera or Essential Thrombocythemia

12. William H. Carter, MD - Preceptor
    Internal Medicine/Cardiology
    Project Title: Randomized Trial Comparing Diltiazem and Metoprolol as an Initial Strategy in the Emergency Department for Atrial Fibrillation Rate Control

13. Audis Bethea, PharmD - Preceptor
    Trauma Research
    Project Title: the Incidence and Risk Factors Associated with Contrast Induced Nephropathy (CIN) in Trauma Patients
